AQua Chiara Micro-Filtered Sparkling Water 4.5pp continuous service

While a water bottle travels an average of one thousand kilometres from the source to the table of a restaurant, AQua Chiara is a 100% local water. The microfiltration process preserves all the benefits of the mineral salts naturally present in the local water. The ecological footprint balance is very positive thanks to its zero kilometre logic.

The Last Straw is a campaign to end the use of the plastic straws in venues around Australia. Spicers have partnered with The Last Straw to reduce our negative impact on global landfill and eco systems.

If you would like a straw, our staff will supply you with a paper one on request
