

VARIATION OF CONDITIONS ATTACHED TO APPROVAL
Scenic Rim Trail – Thornton Trailhead to Spicers Canopy Nature Reserve,
Queensland (EPBC 2016/7847)

This decision to vary conditions of approval is made under section 143 of the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC Act).

Approved action

Person to whom the approval is granted	Spicers Retreats Hotels and Lodges Pty Ltd ACN: 137 592 593
Approved action	To construct and operate a five to six day supervised bushwalk trail and four associated campsites from Mt Mistake to Spicers Peak Nature Refuge, within and adjacent to the Main Range National Park, Queensland. [See EPBC Act referral 2016/7847]

Variation

Variation of conditions attached to approval	The variation is: Delete conditions 8, 9, 14, 16, 21, 22, 26, 27, 28, 29 and 32 attached to the approval and substitute with the conditions specified in table below. Add conditions 8A and 15A. Revoke condition 15. Delete the definition of Baseline data attached to the approval and substitute with the definition specified in the table below. Revoke the definition of Baseline soil quality data. Add the new definitions of Riparian habitat quality data, Soil quality data and Water quality data.
---	---

Date of effect	This variation has effect on the date the instrument is signed
-----------------------	--

Person authorised to make decision

Name and position	Greg Manning Assistant Secretary Assessments and Post Approvals Branch
Signature	
Date of decision	2/7/ 2019

Date of decision	Conditions attached to approval Annexure A
Original dated 18/1/2019	<p>1. The approval holder must:</p> <ul style="list-style-type: none"> a. not clear more than 0.16 hectares of vegetation for the construction of the Woodcutters Ecocamp; b. not clear more than 0.16 hectares of vegetation for the construction of the Amphitheatre View Wilderness Ecocamp; c. not establish more than one crossing at Blackfellow Creek and one crossing at Dalrymple Creek by new trails; d. construct Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp and new trails within the sites indicated in <u>Attachments 2 and 6</u>.
Original dated 18/1/2019	<p>2. Prior to commencement of the action, the approval holder must:</p> <ul style="list-style-type: none"> a. ensure a suitably qualified person has completed and fully documented a survey of Mountain Frog habitat along the proposed alignment of all new trails that occur within 250 metres of the location of any BAAM record or ALA record; b. ensure a suitably qualified person has completed and fully documented a survey of Rainforest Spinach within 50 metres of the proposed alignment of all new trails; and c. submit to the Department a georeferenced map, shapefile and reports showing all Fleay's Frog habitat and records, and all Mountain Frog habitat and records, and the locations of any Rainforest Spinach identified under 2.a. and 2.b.
Original dated 18/1/2019	<p>3. The approval holder must:</p> <ul style="list-style-type: none"> a. ensure that the construction of new trails does not clear, disturb or otherwise result in impacts on Mountain Frog habitat or Fleay's Frog breeding habitat with the exception of the portions of new trails that cross Blackfellow Creek and Dalrymple Creek; and b. ensure that the construction and operation of Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp, including onsite disposal of sewage and wastewater, does not result in impacts on Mountain Frog habitat or Fleay's Frog breeding habitat or the world heritage values of the GRAWHP.
Original dated 18/1/2019	<p>Baseline data</p> <p>4. No less than 20 business days prior to commencement of the action, the approval holder must submit a Baseline Data Collection Plan (BDCP) to the Minister. The approval holder must:</p> <ul style="list-style-type: none"> a. ensure the BDCP is peer reviewed by a suitably qualified independent expert who must provide a written report that evaluates the adequacy of the monitoring proposed in the BDCP, includes a statement that endorses the BDCP and confirms that the BDCP will meet the aims and requirements set in condition 8; and b. publish the peer reviewed BDCP, written report and statement and all baseline data on its website, prior to the commencement of the action, and ensure these remain available on the website for the life of the approval; c. within 10 days after publishing the BDCP, report and statement, notify the Department of the actual date of publication; d. The BDCP must be implemented prior to commencement of the action, subject to condition 6.

Date of decision	Annexure A Conditions attached to approval
Original dated 18/1/2019	5. Within 20 business days of receipt of a BDCP required under condition 4 the Minister may provide a notice to the approval holder that the BDCP requires approval by the Minister .
Original dated 18/1/2019	6. If notice is provided under condition 5, condition 4.d. no longer applies.
Original dated 18/1/2019	7. If the Minister provides notice under condition 5 the approval holder must: <ul style="list-style-type: none"> a. not commence the action until the Minister has approved the BDCP in writing; and b. implement the BDCP approved by the Minister.
As varied on the date this instrument was signed	8. The BDCP required under conditions 4-7 must outline the methods (including survey methodology, effort, timing, frequency, and responsibility) for the collection of: <ul style="list-style-type: none"> a. baseline population data for Hastings River Mouse within 100 metres of Woodcutters Ecocamp; b. baseline population data for Fleay's Frog and Mountain Frog within 100 metres upstream and downstream of each crossing of the new trails at Blackfellow Creek and Dalrymple Creek; c. baseline water quality data within 100 metres upstream and downstream of each crossing of the new trails at Blackfellow Creek and Dalrymple Creek; and d. baseline riparian habitat quality data within 100 metres upstream and downstream of each crossing of the new trails at Blackfellow Creek and Dalrymple Creek.
As varied on the date this instrument was signed	8A. The approval holder must not implement any onsite disposal of sewage or wastewater until the Minister has approved a Sewage and Wastewater Monitoring Plan (SWMP) specifying the methods (including survey methodology, effort, timing, frequency and responsibility) that will be implemented for the collection and analysis of data regarding soil quality, water quality and riparian habitat quality to establish the baseline and subsequently detect any change from baseline outside the boundaries of the Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp attributable to onsite disposal of sewage or wastewater. The SWMP must be reviewed by a suitably qualified independent expert and, when submitted to the Department for approval, accompanied by the written report of the suitably qualified independent expert that evaluates the adequacy of the proposed data collection and analysis methods and a signed certification by the suitably qualified independent expert that the proposed data collection methods are capable of detecting any change attributable to onsite disposal of sewage and wastewater. The SWMP must specify methods for collection and analysis of the following: <ul style="list-style-type: none"> a. soil quality data of soil profiles within the boundaries of Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp and within all areas proposed for disposal of treated sewage and waste water and all areas within 50 metres of the Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp; b. water quality data including surface water and groundwater underlying Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp and all drainage channels and downstream water bodies outside of the boundaries of Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp with potential hydraulic connectivity with sewage and waste water disposal areas; and c. riparian habitat quality data for all drainage channels outside of the Woodcutters Ecocamp and Amphitheatre View Wilderness

Date of decision	Annexure A Conditions attached to approval
	<p>Ecocamp likely to be hydraulically connected with sewage and waste water disposal areas.</p> <p>The approval holder must implement the approved SWMP. The approval holder must publish the approved SWMP on its website within 10 business days of receiving the Minister's approval. The approved SWMP must remain on the website for the life of the approval.</p>
As varied on the date this instrument was signed	<p>9. The approval holder must not commence the action at:</p> <ol style="list-style-type: none"> a. Woodcutters Ecocamp, until the collection of the Hasting River Mouse baseline population data (condition 8.a.), has been completed in accordance with the approved BDCP; and b. new creek trails, until the collection of the baseline data (conditions 8.b., 8.c. and 8.d.), has been completed in accordance with the approved BDCP.
Original dated 18/1/2019	<p>Scenic Rim Trail Management Plan</p> <p>10. No less than 20 business days prior to commencement of the action, the approval holder must submit a Scenic Rim Trail Management Plan (SRTMP) to the Minister. The approval holder must:</p> <ol style="list-style-type: none"> a. ensure the SRTMP is peer reviewed by a suitably qualified independent expert who must provide a written report that evaluates the adequacy of the 10 year ongoing monitoring, mitigation and management measures of the SRTMP and includes a statement that endorses the SRTMP and confirms that the SRTMP will meet the aims and requirements set in condition 14; b. publish the peer reviewed SRTMP, written report and statement on its website, prior to the commencement of the action, and ensure these remain available on the website for the life of the approval; c. within 10 days after publishing the SRTMP, report and statement, notify the Department of the actual date of publication; d. The SRTMP must be in place prior to commencement of the action, subject to condition 12; and e. The SRTMP must be implemented, subject to condition 12.
Original dated 18/1/2019	<p>11. Within 20 business days of receipt of a SRTMP required under condition 10 the Minister may provide a notice to the approval holder that the SRTMP requires approval by the Minister.</p>
Original dated 18/1/2019	<p>12. If notice is provided under condition 11, condition 10.e. no longer applies.</p>
Original dated 18/1/2019	<p>13. If the Minister provides a notice under condition 11 the approval holder must:</p> <ol style="list-style-type: none"> a. not commence the action until the Minister has approved the SRTMP in writing; and b. implement the SRTMP approved by the Minister.
As varied on the date this instrument was signed	<p>14. The SRTMP required under conditions 10-13 must:</p> <ol style="list-style-type: none"> a. describe measures to be implemented for the duration of the approval to: <ol style="list-style-type: none"> i. minimise vegetation clearance for the construction of new trails;

Date of decision	Annexure A Conditions attached to approval
	<ul style="list-style-type: none"> ii. minimise, manage and remediate erosion along the Scenic Rim Trail; iii. reduce the risk of spread of existing vertebrate pests, weeds and pathogens, including chytrid fungus; iv. reduce the risk of introduction and establishment of new vertebrate pests, weeds and pathogens, including chytrid fungus; v. control any new and existing weeds and pathogens outside of the Main Range National Park along the Scenic Rim Trail and at any camps; vi. ensure trail guides are trained to identify any new or existing invasive species of weeds; vii. report any new or existing invasive species of weeds, pests or pathogens to the Queensland Government agency responsible for the management of the Main Range National Park; viii. establish and implement a shoe cleaning and sterilisation facility at the entry point and protocols for staff and clients entering the Scenic Rim Trail; ix. minimise the impact of artificial light and noise on the Hastings River Mouse at Woodcutters Ecocamp; x. remove food waste and litter from the Scenic Rim Trail and at Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp to outside of the GRAWHP and Main Range National Park. <p>b. specify protocols to ensure that any observations of vertebrate pests or weeds, or evidence of pathogens along or in the vicinity of the Scenic Rim Trail are recorded and reported to the approval holder and subsequently to the Queensland Government agency responsible for the management of the Main Range National Park;</p> <p>c. specify the details of a 10 year annual ongoing monitoring program (including methodology, effort, timing, frequency and responsibilities) capable of predicting and detecting:</p> <ul style="list-style-type: none"> i. a decrease of the population of Hastings River Mouse at the Woodcutters Ecocamp compared to the baseline population established under condition 8.a.; ii. a decrease of the population of Fleay's Frog and Mountain Frog at each crossing of the new trails at Blackfellow Creek and Dalrymple Creek compared to the baseline population established under condition 8.b.; iii. changes in water quality compared to the baseline established under condition 8.c. at either crossing of the new trails at Blackfellow Creek and Dalrymple Creek; and iv. a decrease of riparian habitat quality at either crossing of the new trails at Blackfellow Creek and Dalrymple Creek compared to the baseline established under condition 8.f.

Date of decision	Annexure A Conditions attached to approval
	<ul style="list-style-type: none"> d. specify criteria that will trigger corrective action and indicative correction measures, if any decrease or change in water quality, populations or riparian habitat quality referred to in condition 14.c. is detected; e. include an assessment of potential risks that may prevent successful implementation of the management measures, detail the control measures that will be implemented to mitigate these risks, and assess residual risk ratings; f. take account of relevant conservation advice, recovery plans and threat abatement plans for Hastings River Mouse and Fleay's Frog and provide information (for example in a table) as to where this has been addressed; and g. take account of all relevant management plans for managing the GRAWHP.
As varied on the date this instrument was signed	15. Revoked
As varied on the date this instrument was signed	<p>15A. The approval holder must not implement any onsite disposal of sewage or wastewater until the Minister has approved a Plan for Wastewater and Sewage Management (PWaSM). The PWaSM must be reviewed by a suitably qualified independent expert and, when submitted to the Department for approval, accompanied by the written report of the suitably qualified independent expert that evaluates the adequacy of the PWaSM and a signed certification by the suitably qualified independent expert that the PWaSM is appropriate for the purposes specified below. The PWaSM must specify:</p> <ul style="list-style-type: none"> a. the measures to be implemented for the duration of the approval to: <ul style="list-style-type: none"> i. ensure that all sewage and wastewater to be disposed of to land within the boundaries of the Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp is treated to advanced secondary standard to produce class A quality effluent, in accordance with the <i>Queensland Plumbing and Wastewater Code</i> (2017) (as replaced or amended from time to time); ii. ensure that treated sewage and wastewater is only disposed of to the sub-surface of land within the boundaries of the Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp as defined on the map at <u>Attachment 2</u>; iii. minimise the volume of treated sewage and wastewater disposed of from the Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp; iv. ensure that there are no adverse changes from baseline soil and water quality and riparian habitat quality outside the boundaries of the Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp as a result of disposal to land of treated sewage and wastewater; v. ensure that the disposal of treated sewage and wastewater does not introduce new pathogens or increase the extent of existing pathogens or invasive species of weeds, both within and outside the boundaries of the Woodcutters Ecocamp and Amphitheatre View Wilderness Ecocamp; and vi. ensure on-site staff are appropriately trained in the monitoring, maintenance and emergency response measures for the sewage and wastewater treatment system; and

Date of decision	Conditions attached to approval Annexure A
	<p>b. the details of a sampling program for treated effluent to ensure it meets the standard specified in condition 15A.a.i. before disposal to land;</p> <p>c. corrective actions and subsequent further correction measures to be implemented if samples from the program required under condition 15A.b. do not meet the specified standard and/or contain contaminants that could harm the Hastings River Mouse, Fleay's Frog or the world heritage values of the GRAWHP, including the Mountain Frog; and</p> <p>d. the protocols, corrective actions and subsequent further correction measures that will be implemented in the event that the onsite sewage and wastewater treatment monitoring and diagnostic system triggers an alarm or in the event that the treatment system experiences a failure. Interim measures to manage sewage and wastewater to prevent contamination of soil or water, or habitat for the Hastings River Mouse, Fleay's Frog, and Mountain Frog, must be included.</p>
As varied on the date this instrument was signed	<p>Corrective Action Plan</p> <p>16. If, at any time during the life of the approval, the approval holder detects that a decrease in a population, or change in soil, water or habitat quality referred to in condition 8A, 14.c. or 15A has occurred or is likely to occur, the approval holder must report this to the Department within 5 business days of being detected.</p>
Original dated 18/1/2019	<p>17. Within 40 business days of making such a report under condition 16, the approval holder must submit to the Department a Corrective Action Plan (CAP) for approval by the Minister.</p> <p>The CAP must provide details of the detected or predicted decrease in a population, or change in soil, water or habitat quality, the cause of the change and the corrective actions to be taken (including timeframes for reporting the outcomes of those actions to the Department), the measures to be implemented to prevent subsequent decreases in a population or change in soil, water or habitat quality and justification for these measures referring to the most likely cause(s) of the decrease in a population or change in soil, water or habitat quality</p>
Original dated 18/1/2019	<p>18. The approval holder must publish the CAP and outcomes on its website within 10 business days of receiving the Minister's approval in accordance with condition 17. The CAP must remain on the website for the life of the approval.</p>
Original dated 18/1/2019	<p>19. The approved CAP must be implemented.</p>
Original dated 18/1/2019	<p>Administration</p> <p>20. Within 20 business days following commencement of the action, the approval holder must advise the Department in writing of actual date of commencement of the action.</p>
As varied on the date this instrument was signed	<p>21. The approval holder must maintain accurate records substantiating all activities associated with or relevant to the conditions of approval, including measures taken to implement the management plans required by this approval and results of the CAP, SRTMP, SWMP, PWaSM and BDCP, and make them available upon request to the Department. Such records may be subject to audit by the Department or an independent auditor in accordance with section 458 of the EPBC Act or used to verify compliance with the conditions of approval.</p>

Date of decision	Annexure A
	<p>Conditions attached to approval</p> <p>Summaries of audits will be posted on the Department's website. The results of audits may also be publicised through general media.</p>
<p>As varied on the date this instrument was signed</p>	<p>Annual Compliance Reporting</p> <p>22. Within 60 business days of every 12 month anniversary of commencement of the action, or as otherwise agreed to in writing by the Minister, the approval holder must publish a report on its website addressing compliance with each of the conditions, and any data, reports and analyses arising from the implementation of the SRTMP and BDCP and any other management plans as specified in the conditions. Documentary evidence providing proof of the date of publication and non-compliance with any of the conditions of this approval must be provided to the Department at the same time as the compliance report is published. Reports must remain on the website for the life of this approval. The Minister may provide written consent to the approval holder to cease reporting under this condition if satisfied additional reports are not warranted.</p> <p>Note: The first compliance report may report a period of less than 12 months so that it and subsequent compliance reports align with the similar requirement under state approval.</p>
<p>Original dated 18/1/2019</p>	<p>Reporting non-compliance</p> <p>23. The approval holder must notify the Department in writing of any: incident; non-compliance with the conditions; or non-compliance with the commitments made in plans. The notification must be given as soon as practicable, and no later than 2 business days after becoming aware of the incident or non-compliance. The notification must specify:</p> <ul style="list-style-type: none"> a. the condition which is or may be in breach; and b. a short description of the incident and/or non-compliance.
<p>Original dated 18/1/2019</p>	<p>24. The approval holder must provide to the Department the details of any incident or non-compliance with the conditions or commitments made in plans as soon as practicable and no later than 10 business days after becoming aware of the incident or non-compliance, specifying:</p> <ul style="list-style-type: none"> a. any corrective action or investigation which the approval holder has already taken or intends to take in the immediate future; b. the potential impacts of the incident or non-compliance; and c. the method and timing of any remedial action that will be undertaken by the approval holder.
<p>Original dated 18/1/2019</p>	<p>Independent audit</p> <p>25. Upon the direction of the Minister, the approval holder must ensure that an independent audit of compliance with the conditions is conducted and a report submitted to the Minister. The independent auditor and criteria must be approved by the Minister prior to the commencement of the audit. The audit report must address the criteria to the satisfaction of the Minister.</p>
<p>As varied on the date this instrument was signed</p>	<p>26. The BDCP, the SRTMP, the SWMP, the PWaSM and the CAP prepared under these conditions must be consistent with the Department's Environmental Management Plan Guidelines.</p>
<p>As varied on the date this instrument was signed</p>	<p>27. The approval holder may choose to revise a management plan prepared in accordance with condition 4, 8A, 10 or 15A, if the taking of the action in accordance with the revised management plan would not be likely to have a new or increased impact. If the approval holder makes this choice they must:</p>

Date of decision	Conditions attached to approval Annexure A
	<ul style="list-style-type: none"> a. notify the Department in writing that the management plan has been revised and provide the Department with an electronic copy of the revised management plan; b. implement the revised management plan from the date that the management plan is submitted to the Department; and c. for the life of this approval, maintain a record of the reasons the approval holder considers that taking the action in accordance with the revised management plan would not be likely to have a new or increased impact.
As varied on the date this instrument was signed	<p>28. If, under condition 5 or 11, a management plan was prepared in accordance with condition 4 or condition 10 was required to be approved by the Minister; and in respect of a plan prepared under condition 8A or condition 15A; the approval holder may choose to revise an approved management plan without submitting it for approval under section 143A of the EPBC Act, if the taking of the action in accordance with the revised management plan would not be likely to have a new or increased impact. If the approval holder makes this choice they must:</p> <ul style="list-style-type: none"> a. notify the Department in writing that the approved management plan has been revised and provide the Department with an electronic copy of the revised management plan; b. implement the revised management plan from the date that the management plan is submitted to the Department; and c. for the life of this approval, maintain a record of the reasons the approval holder considers that taking the action in accordance with the revised management plan would not be likely to have a new or increased impact.
As varied on the date this instrument was signed	<p>29. If under condition 5 or 11, a management plan was required to be approved by the Minister; and in respect of a plan prepared under condition 8A or condition 15A; the approval holder may revoke their choice under condition 28 at any time by notice to the Department. If the approval holder revokes the choice to implement a revised management plan, without approval under section 143A of the EPBC Act, the approval holder must implement the action management plan in force immediately prior to the revision undertaken under condition 28.</p>
Original dated 18/1/2019	<p>30. Within 20 business days of receipt by the Department of a revised management plan under condition 27 or 28, the Minister may provide a notice to the approval holder that the revised management plan requires approval by the Minister on the basis that the Minister is satisfied that the revised management plan would be likely to have a new and increased impact.</p>
Original dated 18/1/2019	<p>31. If the Minister gives a notice to the approval holder under condition 30 then: condition 27 or condition 28 (whichever is relevant) does not apply, or ceases to apply, in relation to the revised management plan.</p> <p>To avoid any doubt, this condition does not affect any operation of conditions 27 and 28 in the period before the day the notice is given.</p> <p>At the time of giving the notice the Minister may also notify that for a specified period of time that condition 27 or condition 28 does not apply for one or more specified management plans required under the approval.</p>
As varied on the date this instrument was signed	<p>32. If the approval holder proposes to amend a management plan prepared in accordance with condition 4, 8A, 10 or 15A, that the approval holder thinks that taking the action in accordance with the revised management plan would be likely to have a new or increased impact, the revised management plan must</p>

Date of decision	Annexure A Conditions attached to approval
	be submitted to the Minister for approval at least 20 business days before the revised plan is proposed to be implemented.
Original dated 18/1/2019	33. If condition 31 or 32 applies, the approval holder must: <ul style="list-style-type: none"> a. ensure the management plan is peer reviewed by a suitably qualified independent expert who must provide a report to the approval holder that evaluates the adequacy of the revised management plan and who must endorse the revised management plan; b. publish the revised management plan, peer review report, written statement of endorsement and all supporting data on its website prior to the implementation of the revised management plan, and ensure these remain available on the website for the life of the approval; c. within 10 days after publishing the revised management plan, report and statement, notify the Department of the actual date of publication; d. not implement the revised management plan until the Minister has approved the plan in writing; and e. implement the revised management plan approved by the Minister.
Original dated 18/1/2019	34. Conditions 27 to 33 are not intended to limit the operation of section 143A of the EPBC Act which allows the approval holder to submit a revised management plan to the Minister for approval.
Original dated 18/1/2019	35. If, at any time after five (5) years from the date of this approval, the approval holder has not commenced the action , then the approval holder must not commence the action without the written agreement of the Minister .

Date of decision	Definitions attached to approval
Original dated 18/1/2019	Advanced secondary: means treatment of effluent to meet the standard specified for Advanced Secondary in 'Appendix 1 –Effluent Quality' of the <i>Queensland Plumbing and Wastewater Code (2017)</i> (as replaced or amended from time to time), and including nutrient removal and disinfection using irradiation with ultraviolet light (not chlorination).
Original dated 18/1/2019	ALA: means an Atlas of Living Australia Mountain Frog observation record shown as 'ALA records' in the maps at <u>Attachment 1</u> .
Original dated 18/1/2019	Amphitheatre View Wilderness Ecocamp: the area marked as 'Amphitheatre View Wilderness Ecocamp' in <u>Attachment 2</u> .
Original dated 18/1/2019	BAAM record: means a Biodiversity Assessment and Management Pty Ltd (BAAM) Mountain Frog observation record shown as 'BAAM records' in the maps at <u>Attachment 1</u> .
As varied on the date this instrument was signed	Baseline data: means all baseline habitat data, baseline population data, baseline water quality data and baseline riparian habitat quality data .
As varied on the date this instrument was signed	Baseline Soil quality data: Revoked
Original dated 18/1/2019	Baseline water quality data: means data including, but not limited to, pH, turbidity, dissolved oxygen, electrical conductivity and total suspended solids as determined and collected by a suitably qualified person over a timeframe that serves as a sound basis for comparison to data acquired after commencement of the action .

Date of decision	Definitions attached to approval
Original dated 18/1/2019	Blackfellow Creek: the creek marked as 'Blackfellow Creek' in Attachment 3 .
Original dated 18/1/2019	Business days: a day other than a Saturday or a Sunday or a day which is a public holiday for the whole of Queensland.
Original dated 18/1/2019	Camps: Mt Mistake Farmhouse and Canopy Ecocamp shown at Attachment 5 .
Original dated 18/1/2019	Class A: means recycled water produced to the standard prescribed in Division 2 - 18AF and Schedule 3D of the <i>Queensland Public Health Regulation 2005</i> , as replaced or amended from time to time.
Original dated 18/1/2019	Class 3 track: a formed track with hardened natural surfaces to prevent erosion, no more than 2.5 metres wide.
Original dated 18/1/2019	Class 4 track: a rough track without major modification to the ground.
Original dated 18/1/2019	Class 5 track: a rough unformed track with minimal to no modification of the natural environment, no more than 60cm wide.
Original dated 18/1/2019	Commence the action/Commencement of the action: the first clearing of any native vegetation, major works, minor works and preparatory works.
Original dated 18/1/2019	Dalrymple Creek: the creek marked as 'Dalrymple Creek' at Attachment 4 .
Original dated 18/1/2019	Department: the Australian Government Department responsible for administering the EPBC Act .
Original dated 18/1/2019	Entry: the entry point to the Scenic Rim Trail located at Thornton Trailhead.
Original dated 18/1/2019	EPBC Act: the <i>Environment Protection and Biodiversity Conservation Act 1999</i> (Cth).
Original dated 18/1/2019	Environmental Management Plan Guidelines: the Department's Environmental Management Plan Guidelines available on the Department's website.
Original dated 18/1/2019	Fleay's Frog: the Fleay's Frog (<i>Mixophyes fleayi</i>) listed as a threatened species under the EPBC Act .
Original dated 18/1/2019	Fleay's Frog breeding habitat: sites where tadpoles occur in pools, and riffle zones used in breeding, as indicated in maps at Attachment 1 .
Original dated 18/1/2019	GRAWHP: the Gondwana Rainforest of Australia World Heritage property inscribed on the World Heritage List in 1986 and extended in 1994.
Original dated 18/1/2019	Hastings River Mouse: the Hastings River Mouse (<i>Pseudomys oralis</i>) listed as a threatened species under the EPBC Act , with species habitat and records as indicated in maps at Attachment 6 .
Original dated 18/1/2019	Management Plans: means any management plan adopted by an Australian or Queensland government department or agency that is applicable to the GRAWHP , including: <ul style="list-style-type: none"> a. Strategic overview for management of the World Heritage Central Eastern Rainforest Reserves of Australia / CERRA. Canberra: Dept of the Environment and Heritage, 2000. b. Main Range National Park and Spicers Gap Road Conservation Park Management Statement 2013: Qld Department of National Parks, Recreation, Sport and Racing.
Original dated 18/1/2019	Minister: the Australian Government Minister responsible for administering the EPBC Act and includes a delegate of the Minister .

Date of decision	Definitions attached to approval
Original dated 18/1/2019	Mountain Frog: the Mountain Frog (<i>Philoria kundagungan</i>).
Original dated 18/1/2019	New or increased impact: means a new or increased environmental impact or risk relating to any protected matter , when compared to the likely impact of implementing the action management plan that has been approved by the Minister under condition 10, including any subsequent revisions approved by the Minister , as outlined in the <i>Guidance on 'New or Increased Impact' relating to changes to approved management plans under EPBC Act environmental approvals (2017)</i> .
Original dated 18/1/2019	New creek trails: the portion of new trails situated within a 100 m of Blackfellow Creek crossing and Dalrymple Creek crossing.
Original dated 18/1/2019	<p>New trails: means any trail not in existence at the date of approval, including:</p> <ul style="list-style-type: none"> a. 5.7 km of Class 5 track, and All Terrain 4WD access to the Ecocamps, via the retired section of the Winder Forestry Track. This includes two Class 5 tracks that deviate parallel to Winder Forestry Track to access sites of amenity; b. 2.76 km of track, principally Class 5 track, linking the Winder Management Track to the Amphitheatre View Wilderness Ecocamp. This track may cross Blackfellow Creek. Sections of Class 3 track may be constructed in the descent to and ascent from Blackfellow Creek; c. 4.5 km of track, principally Class 5 track, linking Mt Castle Lookout and the Cascades Trail. This track may cross Dalrymple Creek at its upper source. Sections of Class 3 track may be constructed in the descent to and ascent from the creek; d. 1.7 km of track, principally Class 5 track, linking Sylvester's Lookout and the Bare Rock Trail. This section is to be used as the most direct access south for people who will not be using Woodcutters Ecocamp. A section of Class 3 track may be constructed for the descent to and ascent from the creek; e. 4.9 km of track, mainly Class 4 track, linking the Banshee Fire Line to Bare Rock; f. 0.5 km upgrade to Class 3 track of Mt Mitchell Track to Spicers Peak Nature Reserve; and g. the trails shown in and designated 'New' in the Legend of <u>Attachment 5</u> and Winder Forestry Track.
Original dated 18/1/2019	Rainforest Spinach: the Rainforest Spinach (<i>Elatostema reticulatum</i>).
As varied on the date this instrument was signed	Riparian habitat quality data: means data including but not limited to, stream bank and stream bed condition, and terrestrial flora composition and quality as determined and collected by a suitably qualified person .
Original dated 18/1/2019	Scenic Rim Trail: includes new trails , the 'Existing Winder Road' and the trails marked as 'Existing Northern Fire Line'; 'Trail to Canopy Ecocamp' and 'Existing QPWS Trail' shown at <u>Attachment 5</u> .
As varied on the date this instrument was signed	Soil quality data: means data collected by a suitably qualified person including, but not limited to, BOD5, suspended solids, coliform counts, nitrogen and phosphorus.
Original dated 18/1/2019	Staff: persons employed or contracted, including interns and volunteers, by the approval holder.
Original dated 18/1/2019	Suitably qualified independent expert: a person, independent from the approval holder and the writer of the plans, who has professional qualifications, training skills and or experience related to the matter of concern, and who can
