

Philosophy

We like wine. We like food. We love their contrasts and how they complement each other.

You are here, which most likely means, you do too.

With this in mind, we have created a list of beverages we think best suits our place.

The French use a term – terroir - which is all the elements combined that go in to making a place unique for grapes to grow.

In Australia, we use the term 'sense of place' to say the same thing.

We want to show you a list of drinks from producers we believe in.

Producers we know.

Producers we love to share.

The story of our beverage list starts with the place it grows.

We want to share the stories and show off their sense of place.

As much as possible this list is unashamedly Australian, however we cannot forget where the story begins and as such have included selections from around the globe where it all began.

Our place exists because of the hard work and determination of an incredible group of people, and so do the wines, beers and spirits we have selected.

Please share a glass or two with us, and let us share these stories with you.

Stephen Hazlett - Restaurant Manager

ON TAP

What is Coravin?

The Coravin wine preservation system allows us to pour wine from a bottle without removing the cork. Whether you want a sip, a glass, or more, each will always taste just as amazing as your first – even weeks, months, or years later.

How does a Coravin wine preservation system work?

A needle is inserted through the cork or special screw cap closure. We then tip the bottle and it is pressurized with a layer of argon, an inert gas, over the wine and protects it from oxygen. This allows us to ensure that each glass is in premium condition each time we pour. The cork, or screw cap closure will then reseal naturally and continue to protect the wine.

KoKo Coffee Roasters is a boutique coffee roaster, wholesale and retail outlet based in Mermaid Beach, Queensland. They have customized Spicer's own coffee blend '**The Glossy Black**' which brings in the taste and aroma characteristics that Spicer's is renowned for; star anise, cardamon, vanilla, cinnamon & orange peel to name a few.

The Glossy Black coffee brand has been developed for one primary purpose and that is to raise awareness and protect the habitat and breeding grounds of the rare Glossy Black Cockatoo. The Glossy Blacks habitat is found throughout south east Queensland and on the 18,000 acres of nature refuge the Spicer's landholders currently hold.

Money raised by the sale of coffee will go towards growing awareness and protecting and rehabilitating their habitat. This not only protects the Glossy Black Cockatoo but many other species of fauna and flora found within this majestic countryside.
